SUBJECT INDEX TO VOLUME 129

ABDOMEN
ascites, experimental, gastric secretion in dogs with, 697
incisions, disruption, elimination of, 758
trauma, blunt, culdocentesis in, 809
Adrenal glands
hemorrhage, retroperitoneal, 989
microcirculation, in experimental hemorrhagic shock, 511
Amputations
interscapulothoracic, in treatment of malignant tumors, 1203
lower extremity, re-evaluation of, 799
Anesthesia
inhalation, experimental, nitrous oxide or ethylene, intestinal distention produced by, 108
Aneurysms
aortic, abdominal, elective resection and expectant treatment, comparative study, 1
Aorta
abdominal, aneurysm, elective resection and expectant treatment, comparative study, 1
occlusion, experimental, reactive hyperemia after, 98
Appendix
surgery, during pregnancy, 489
Arteries
coronary, experimental, measurement of collateral blood flow using radioactive rubidium chloride, 1034
femoral, experimental, response to potassium ion, 979
obstruction, method of assessing circulation distal to, 538
fistula, experience with using parallel flow dialyzer, 1199
traumatic, late complications of, 525
iliac, occlusion, atraumatic, 1053
mesenteric, superior, blood flow, experimental, influence of vagotomy on, 1231
renal, anastomosis, experimental, with Nakayama ring, 1207
roentgenography, for vascular variations, 33
transposition, surgical correction of, in children, 1258
Ascites
dual origin of, in hepatic cirrhosis, 1027

BLOOD
circulation, distal to femoral artery occlusion, method for assessing, 538
experimental, changes in acutely ischemic muscle, 1213
superior mesenteric artery, influence of vagotomy on, 1231
microemboli during cardiopulmonary bypass detected by ultrasound, 505
hemodynamics, effects of amniotic fluid embolism, 45
experimental, of coronary collateral flow using radioactive rubidium chloride, 1034
influence of hemorrhagic hypotension on, 576
and respiratory changes after extensive abdominal operations, 15
lymphocytes, subcellular, experimental, immunosuppressive effect of antisera to, 551
Blood vessels
anomalies, angiographic demonstration of, 33
cerebrum, vasospasm, experimental and clinical, 931
pedal, hyperbaric oxygen, effect on, 761
pulmonary, experimental, permeability, effects of endotoxin on, 723
roentgenography, in cerebrovascular insufficiency, 519
surgery, experimental, response of, to potassium ion, 979
Bone
carpal scaphoid, fractures, acute, 281
marrow, tumor cells, prognostic significance of, 483
physiology, and pregnancy, 27
Book Shelf
Can these bones live?, 1281
Role of humane societies in history of resuscitation, 811
Brain
blood supply, insufficiency, comprehensive selective angiography for, 519
Breast
carcinoma, location and prognosis, 705
modified radical mastectomy, 79
pathologic prognostic findings in, 258
prophylactic and therapeutic castration in, 270
resectable, primary treatment of, 953
surgery, modified radical mastectomy, 79
primary treatment of resectable carcinoma, 953
Burns
thermal, pulmonary injury associated with, 1242

CANCER
adenocarcinoma, rectal, analysis of 830 patients, 10
breast, carcinoma, location and prognosis, 705
carcinoma, modified radical mastectomy in, 79
pathologic prognostic findings in, 258
prophylactic and therapeutic castration in, 270
resectable, primary treatment of, 953
colon, carcinoma, low recurrence rate in ileocolic anastomosis, 960
carcinoma, in young people, 29
esophagogastric, carcinoma, cause of leakage at anastomosis after resection for, 1014
extremities, chemotherapy, with hyperthermic perfusion, 305
head and neck, treatment, results of, 502
liver, carcinoma, lobectomies and extensive resections for, 249
mortality, leiomyosarcoma of retroperitoneum, 285
prognosis, of 830 patients with rectal adenocarcinoma, 10
of leiomyosarcoma of retroperitoneum, 285
statistics, analysis of 830 patients with rectal adenocarcinoma, 10
treatment, castration in breast carcinoma, 270
with sulfones, 103
Cerebrum
vasospasm, experimental and clinical, 931
Chemotherapy
dactinomycin, hyperthermic perfusion with, for cancers of extremities, 305
melphalan, hyperthermic perfusion with, for cancers of extremities, 305
Collective Review
Indications for splenectomy in hematologic diseases, 129
Management of contaminated surgical wounds, 593
Peyronie's disease, 1291
Tensile strength of wounds and factors that influence it, 819
Tumors of chest wall, 1059
Vaginal aplasia, 361
Colon
anastomosis, ureterosigmoid, seromuscular folding technique for, 1047
carcinoma, low recurrence rate of, in ileocolic anastomosis, 960
in young people, 29
surgery, transverse tube colostomy of, 123

DRUGS
- antisludging, in experimental cold injury, 1019
- cell-stabilizing, experimental, enzymatic evaluation of hepatic preservation with, 963
- vasoactive, phenoxybenzamine (Dibenzyline®) in human shock, 789

EDITORIAL
- Can gallstones be prevented?, 583
- Diverticulitis of colon, 1045
- Emergency department and critically injured patient, 113
- Management of colonic stoma, 1046
- One stage versus two stage pancreatoduodenectomies for periampullary tumors, 1268
- Open wound, 584
- Postvagotomy-pyloroplasty dumping and diarrhea, 1267
- Renal arterial block, 114
- Speak truthfully to cancer patient, 804
- Stereotaxic surgery in Parkinson's disease, 345
- Surgeons and machines, 344
- Transplantation of cadaver organs, 803

Enzymes
- antiprotease deficiency and familial infantile liver cirrhosis, 289
- cellular activity, experimental, relationship to catgut and collagen suture absorption, 691

Esophagus
- carcinoma, resection, cause of leakage at site of anastomosis, 1014
- hiatal hernia of, 734
- rupture, treatment by epigastric celiotomy, 277
- surgery, for carcinoma of, 1014
  - epigastric celiotomy for treatment of effort rupture of, 277

Extremities
- ischemia, experimental tourniquet, vascular responses to, 309
- lower, amputations of, 799

FLUIDS
- administration, intraoperative, renal response to, 794
- asanguineous, and whole blood in treatment of hemorrhagic shock, 1247

Foot
- ischemia, hyperbaric oxygen and regional vasodilatation in, 761

Fractures
- carpal scaphoid, treatment of, 281

HEART
- arrest, experimental, resuscitation from, due to exsanguination, 89
- blood supply, microemboli during cardiopulmonary bypass, 505

Hemorrhage
- adrenal, retroperitoneal, 989

Hernia
- diaphragmatic, reflux in patients with, 734

Hormones
- epinephrine, experimental, effect on fetal growth and length of gestation, 341

INFANTS
- surgery, long term venous catheterization in, 805

Infections
- Ludwig's angina, treatment, 755

Instruments and apparatus
- dialyzer, parallel flow, in arteriovenous fistula, 1199
- Nakayama ring, canine renal artery anastomosis with, 1207
- nonporous surgical drape, 353
- ultrasonic detection chamber, for microemboli during cardiopulmonary bypass, 505

Intestines
- anastomosis, ileocolic, low recurrence rate of colonic carcinoma, 960
- distention, experimental, produced by nitrous oxide or ethylene inhalation, 108
- duodenum, technique of pancreaticoduodenectomy, 116
- ulcers, perforated, factors influencing treatment of, 325
  - perforated, operations for, 465
- ileum, experimental, absorption of urinary contents from, 1189
- inflammation, radiation, surgical aspects of, 1163
- jejunum, atresia, correction of, 545
  - experimental, absorption of urinary contents from, 1189
- perforation, diatrizoate precipitation test for, 475
- small, obstruction, orally administered large amounts of barium for, 1185
- surgery, ileocolic anastomosis, low recurrence rate of colonic carcinoma, 960

Isotopes
- radioactive, rubidium chloride for measurement of coronary collateral blood flow, 1034

JAW
- surgery, technique for intermaxillary fixation, 1270

KIDNEYS
- arteries, experimental, anastomosis, with Nakayama ring, 1207
- hydronephrosis, drainage of, 775
- physiology, response to intraoperative fluid administration, 794
- surgery, drainage of massively dilated, 775
- transplantation, canine, antilymphocyte serum in treatment of, 71
  - selection of donors, 243

LIVER
- cirrhosis, dual origin of ascites in, 1027
  - experimental, gastric secretion in dogs with, 697
  - familial infantile and antiprotease deficiency, 289
- disease, hyaline necrosis, biopsies in, 749
- function, experimental, of isolated perfused, 470
- surgery, experimental, gastric secretion in dogs with cirrhosis and ascites, 697
  - experimental, one stage allogenic transplantation of, and hepatectomy, 565
  - lobectomies and extensive resections of, 249
- transplantation, experimental, enzymatic preservation, 963

Lungs
- blood supply, experimental, effects of endotoxin on permeability of, and on ultrastructure and surfactant, 723
  - microemboli during cardiopulmonary bypass, 505
- function, changes after extensive abdominal operations, 15
- injury, associated with thermal burns, 1242
- surgery, experimental, functional adequacy of transplanted, 493
- transplantation, experimental, with simultaneous contralateral pulmonary artery ligation, 768

MOUTH
- Ludwig's angina, emergency treatment of, 755

Muscles
- vessels, experimental, ischemia, changes in, 1213

NECK
- cancer, results of management of, 502

Nerves
- cranial, experimental, influence of vagotomy on superior mesenteric artery blood flow, 1231

OXYGEN
- hyperbaric, and regional vasodilatation in pedal ischemia, 761

PANCREAS
- disease, suspected, pancreatography in, 319
- inflammation, acute, and blood flow of, experimental, 331
  - acute, role of early diagnostic laparotomy in, 263
- surgery, reappraisal of, 49
  - technique of pancreaticoduodenectomy, 116

Parotid gland
- tumors, primary malignant, treatment of, 40

Pelvis
- abscess, adnexal, late postoperative complication of, 973

surgery, adnexal abscess as late complication of, 973
tumors, malignant, lactic dehydrogenase isozymes in vaginal pools, 547
Pharynx
reconstruction of oropharyngeal surgical defects with forehead flap, 533
Physiology
changes following chest war injuries, 233
Plastics
drapes, nonporous surgical, 353

RADIATION
injurious effects, enteritis, 1163
Rectum
carcinoma, analysis of 830 patients, 10
surgery, procidentia, treatment of, 1225
Roentgen rays
contrast media, barium, orally administered large amounts, for obstruction of small intestine, 1185
diatrizoate precipitation test for intestinal perforation, 475
diagnosis, of cerebrovascular insufficiency, 519
of hiatal hernia, 734
in suspected pancreatic disease, 319
of vascular variations, 33
venography in ileofemoral venous thromboembolism, 57

SERUM
antilymphocyte, mode of action, 717
Shock
experimental, simulating clinical hemorrhagic, 1173
hemorrhagic, experimental, adrenal microcirculation in, 511
experimental, influence of hypotension on measurements of extracellular fluid volume, 576
microcirculatory changes in liver during, 995
model, 1173
treatment of, with asanguineous fluids and whole blood, 1247
treatment, phenoxybenzamine (Dibenzyline®) in human, 789
Sinuses
pilonidal, conservative management of, 786
Stomach
blood supply, experimental, isolated perfusion of, 1005
carcinoma, resection, cause of leakage at site of anastomosis, 1014
pyloroplasty without muscle closure, 1039
secretion, acid, effect of reserpine on, experimental, 300
experimental, with cirrhosis and ascites, 697
gastrin inhibition, before and after portacaval shunt, 22
surgery, for carcinoma of, 1014
Surgery
abdomen, postoperative, hemodynamic and respiratory changes, 15
ablative, interscapulothoracic amputation in treatment of malignant tumors, 1203
aseptic, bacteriologic study of surgical gloves, 949
evaluation of duration of surgical scrub, 1181
carcinoma, lobectomies and extensive resection for, 249
elective, for abdominal aortic aneurysm and treatment of, comparative study, 1
experimental, absorption of urinary contents from isolated segments of jejunum and ileum, 1189
acute pancreatitis and pancreatic blood flow, 331
adrenal microcirculation in hemorrhagic shock, 511
antilymphocyte serum in treatment of canine renal homografts, 71
cold injuries, antisludging agents in, 1019
effect of antisera to subcellular lymphocyte fractions, 551
of endotoxin on pulmonary capillary permeability, ultrastructure, and surfactant, 723
of reserpine on gastric acid secretion and argentaffine cells, 300
fetal environment and its influence on fetal development, 556
function of isolated perfused pig liver, 470
gastric secretion in dogs with cirrhosis and ascites, 697
gastrin inhibition of gastric secretion before and after portacaval shunt, 22
hemodynamic effects of amniotic fluid embolism, 45
hemorrhagic shock, asanguineous fluids and whole blood in treatment of, 1247

for elimination of disruption of abdominal incisions, 758
for intermaxillary fixation, 1270
jejunoplasty for jejunal atresia, 545
95 per cent removal of distal portion of pancreas, reappraisal of, 49
of pancreaticoduodenectomy, 116
pyloroplasty without muscle closure, 1039
radical groin dissection, 1275
reconstruction of oropharyngeal surgical defects, 533
for rectal procidentia, 1225
for trachea, 347
transposition of great arteries in children, correction of, 1258
transverse colon tube colostomy, 123
ureterosigmoid anastomosis, seromuscular folding for, 1047
venous catheterization in infants, 805
venous thrombosis, end results, 66

Sutures
catgut, experimental, absorption of, 691
collagen, experimental, absorption of, 691
nylon, double-run for wound closure, 585

THORAX
injury, in combat casualties, 233
Trachea
injury, experimental, due to cuffed tracheal tubes, 1235
surgery, approaches to, 347
Transplants
antilymphocyte serum, mode of action, 717
kidney, canine, antilymphocyte serum in treatment of, 71
psychologic considerations in selection of donors, 243
liver, experimental, one stage allogeneic and hepatectomy, 565
lungs, experimental, functional adequacy of, 493
experimental, with simultaneous contralateral pulmonary artery ligation, 768
Trauma
abdominal, blunt, culdocentesis in, 809
arteriovenous fistulas, late complications of, 525
frostbite, experimental, use of antisludging agents in, 1019
trachea, experimental, due to cuffed tracheal tubes, 1235
Tumors
leiomyosarcoma, of retroperitoneum, 285
malignant, cells in bone marrow, prognostic significance of, 483
pelvic, lactic dehydrogenase isozymes in vaginal pools, 547
treatment of, by interscapulothoracic amputation, 1203
melanomas, extremities, hyperthermic perfusion with chemotherapy for, 305
parotid gland, malignant, primary, treatment of, 40
sarcomas, extremities, hyperthermic perfusion with chemotherapy for, 305

ULCERS
duodenum, perforated, factors influencing treatment of, 325
perforated, operations for, 465
Ureter
anastomosis, ureterosigmoid, seromuscular folding technique for, 1047
Uterus
amniotic fluid, hemodynamic effects of embolism, 45
pregnancy, abortion, uterine aspiration in management of, 588
appendectomy during, 489
fetal environment and its influence of fetal development, experimental, 556
fetal growth, effect of epinephrine on, experimental, 341
and osteoporosis, 27

VAGINA
lactic dehydrogenase isozymes in patients with pelvic malignant tumors, 547
Veins
fistula, experience with using parallel flow dialyzer, 1199
traumatic, late complications of, 525
ileofemoral, thromboembolism, venography in, 57
jugular, catheterization in infants, 805
portacaval shunts, experimental, gastrin inhibition of gastric secretion, 22
thrombosis, surgical operations for, 66
Venae cavae
superior, catheterization in infants, 805

WOUNDS
closure, with double-run nylon, 585
incisional, disruption, elimination of, 758
war, of chest, 233
